An Introduction to Fuzzy Logic Applications in Intelligent Systems (The Springer International Series in Engineering and Computer Science)

An Introduction to Fuzzy Logic Applications in Intelligent Systems (The Springer International Series in Engineering and Computer Science)

An Introduction to Fuzzy Logic Applications in Intelligent Systems consists of a collection of chapters written by leading experts in the field of fuzzy sets. Each chapter addresses an area where fuzzy sets have been applied to situations broadly related to intelligent systems.

The volume provides an introduction to and an overview of recent applications of fuzzy sets to various areas of intelligent systems. Its purpose is to provide information and easy access for people new to the field. The book also serves as an excellent reference for researchers in the field and those working in the specifics of systems development. People in computer science, especially those in artificial intelligence, knowledge-based systems, and intelligent systems will find this to be a valuable sourcebook. Engineers, particularly control engineers, will also have a strong interest in this book.

Finally, the book will be of interest to researchers working in decision support systems, operations research, decision theory, management science and applied mathematics. *An Introduction to Fuzzy Logic Applications in Intelligent Systems* may also be used as an introductory text and, as such, it is tutorial in nature.

From reader reviews:

Kathleen Owens:

Why don't make it to become your habit? Right now, try to ready your time to do the important act, like looking for your favorite guide and reading a e-book. Beside you can solve your long lasting problem; you can add your knowledge by the reserve entitled An Introduction to Fuzzy Logic Applications in Intelligent Systems (The Springer International Series in Engineering and Computer Science). Try to make book An Introduction to Fuzzy Logic Applications in Intelligent Systems (The Springer International Series in Engineering and Computer Science) as your good friend. It means that it can to be your friend when you feel alone and beside associated with course make you smarter than ever before. Yeah, it is very fortunated to suit your needs. The book makes you a lot more confidence because you can know every little thing by the book. So , we should make new experience in addition to knowledge with this book.

Jack Lumpkin:

This book untitled An Introduction to Fuzzy Logic Applications in Intelligent Systems (The Springer International Series in Engineering and Computer Science) to be one of several books in which best seller in this year, that's because when you read this publication you can get a lot of benefit into it. You will easily to buy this kind of book in the book store or you can order it by way of online. The publisher of this book sells the e-book too. It makes you easier to read this book, since you can read this book in your Touch screen phone. So there is no reason to your account to past this publication from your list.

Rosemary Lafleur:

That book can make you to feel relax. This specific book An Introduction to Fuzzy Logic Applications in Intelligent Systems (The Springer International Series in Engineering and Computer Science) was multi-colored and of course has pictures around. As we know that book An Introduction to Fuzzy Logic Applications in Intelligent Systems (The Springer International Series in Engineering and Computer Science) has many kinds or variety. Start from kids until teens. For example Naruto or Investigator Conan you can read and feel that you are the character on there. Therefore , not at all of book are make you bored, any it can make you feel happy, fun and loosen up. Try to choose the best book for yourself and try to like reading that.

Larry Tatro:

What is your hobby? Have you heard in which question when you got scholars? We believe that that problem was given by teacher to the students. Many kinds of hobby, Every individual has different hobby. Therefore you know that little person such as reading or as examining become their hobby. You need to know that reading is very important and book as to be the thing. Book is important thing to provide you knowledge, except your teacher or lecturer. You see good news or update concerning something by book. Different categories of books that can you choose to adopt be your object. One of them is actually An Introduction to Fuzzy Logic Applications in Intelligent Systems (The Springer International Series in

Engineering and Computer Science).
