HIV is no longer a death sentence and persons with HIV are living longer, healthier and more sexually active lives. Nevertheless, the sexual practices fo gay men libing with HIV have largely been ignored. This book illuminates the struggles faced by HIV-positive gay and bisexual men as sexual beings, but also describes the myriad ways in which many of these men are able to celebrate their sexuality. This distinctive and timely volume offers meaningful and practical information for anyone working with HIV seropositive gay and bisexual men in both research and service domains.
