Estheticians Are a Girl's Best Friend Diane Buccola

(2nd edition; 2016) I have recently revised this book (June 2016) in order to provide the general public with updated information about product diversion, skin cancer statistics, hair removal options and what to look for in an esthetician. This book provides an overview, the goal of which is to help the general public navigate their way through various skin care options before committing to a medical or surgical procedure that could be expensive, irreversible and possibly dangerous. (Estheticians, please give this little book a quick read and pass it along to your clients, your friends, their friends, etc. Let's get the word out that Estheticians Are a Girl's Best Friend!) Women in particular are bombarded with ads advising them to nip, tuck, lift, tighten, slim, change and fix. In other words, we are urged to alter who we are and how we look. But no matter what any manufacturer, salesperson, or the media tries to tell you (or sell you), there is no anti-aging miracle product that will work for every woman. We all have personal variables which determine how well our skin will age such as genetics, environmental exposure, lifestyle choices, hormones and health issues. And even within those parameters, much depends upon how the skin is maintained throughout one's life.
