The Mortgage Meltdown: The Mindsets That Got Us Here and What You Can Do About It Stanley J. Kazwell Jr.

Forget what you think you know about the mortgage meltdown, or at least, suspend your thoughts for a while. I invite you to consider a different perspective on how we got here and what you can do about it. Everyone has an opinion on how all of this turmoil came about. Everyone has an opinion on what should be done - now. Most of those opinions are based on what we are told. Unfortunately, most of what we have heard is wrong. The nightly news, pontificating politicians, and a myriad of mindsets bombard us daily, altering our perceptions. Chaos appears to reign. In the midst of tremendous challenges, tremendous opportunities await those who have or gain the understanding and willingness to act. While the government promises veiled versions of more of the same, you can choose to do something different. Take control. Your individual life is yours to create. This is what this book is about. Whether you find yourself upside down, dealing with foreclosure, or financially challenged, this book has answers. If you want to know the truth about; how the meltdown happened, real estate cycles, Fannie Mae/Freddie Mac, this book has answers. If you want to know why lenders did what they did, and do what they do, this book will tell you. If you want something other than the conventional wisdoms driving the masses, this book is for you.
