## **Generation Kitchen** Richard Reeve

Much sought after by oil companies, 'generation kitchens' are sites where geological forces have combined to create conditions for oil production. By turns brooding and wittily observant, Richard Reeve's fifth book of poetry meditates on the intrigues of fossil fuel companies and ecological despoliation, but also on personal rites of passage – on relationships, deaths, the turn of the seasons. Oracular and bardic, Reeve's work is also paradoxically down to earth and gritty. He knows that, beyond the geopolitical framework, beyond the anthropocene moment, the landscape endures.
