Before the Ironclad: Warship Design and Development, 1815-1860 David K. Brown

When first published in 1990 *Before the Ironclad* was highly regarded and wholly unique. Brown's work challenged old assumptions and started a reevaluation of British contributions to naval developments of the period. This book traces the transition from sail to steam power to the construction of the HMS *Warrior*, the first iron hulled warship, and this new edition will feature more extensive illustrations. Written by an eminent naval architect, *Before the Ironclad* is both a balanced account of general developments in shipbuilding and an in-depth study of the ships themselves.
