Heaven Knows What is one of the most popular books on astrology ever printed, with over half a million copies sold. The reason it is popular is simple:

You can learn how to give a complete interpretation of a birth chart in a half-hour.

Here is how you do it:

1. Use a horoscope blank from the back of the book.
2. Look up your birth date in the Table of Planetary Positions and write the numbers you find, in the exact order you find them, under the corresponding abbreviations in the box provided on the horoscope blank.
3. Write each abbreviation in its corresponding numbered space on the circle in the horoscope blank.
4. Look for relationships between the planets (the book shows you how to do this in just a few minutes).
5. Look up the information you have discovered, according to the numbered pattern at the bottom of the chart.

That's all it takes. Heaven Knows What gives you far more than the sun sign interpretations you find in newspapers. In Heaven Knows What, you will learn the meaning of the sun and moon combinations and the aspects of all the planets with each other on your specific chart. Heaven Knows What can be your initial guidebook to learning astrology. It can also give you everything you need to give concise and accurate readings that will amaze your friends and even surprise you.
