Antique Maps 12x12 2010 Wall Calendar Silver Lining

The oldest known maps exist on clay tablets drawn about 2300 B.C. in Babylonia. The Egyptians mapped the Nile Valley, and the Greeks, who were among the first to realize Earth was round, pictured the known world in the early 300s B.C. Anaximander was the first to attempt to model the world according to scientific principles. Later, the Romans became accomplished surveyors in the course of building their empire. The best-known ancient maps are those of Claudius Ptolemy (c. A.D. 85-165), an Egyptian scholar whose eight-volume Geographia included maps of the known world that represented Europe, Africa and Asia. During the era of European exploration, a golden age of cartography resulted from the discoveries of navigators like Columbus and Magellan, and by the invention of printing, which made these important documents more widely available. Many of history's greatest cartographers are represented by the fascinating antique maps that illustrate this calendar. Includes the following maps: British Colonies in America 1719 by John Senex, World Nautical Expeditions of Francis Drake and Thomas Cavendish 1595 by Jodocus Hondius, Great Britain and Ireland 1630 by Willem Blaeu, Recens et Integra Orbis Descriptio Werner Projection Map 1519 by Oronce Fine, Europe 1760 by Guillaume Delisle, Nova Totius Terrarum Orbis Geographica ac Hydrographica Tabula 1630 by Henricus Hondius, New Map of the Americas 1635 by Willem Blaeu, Mercator Map of Africa 1570 by Abraham Ortelius, New and Exact Map of New Netherlands 1675 by Hugo Allard, New Map of Asia 1570 from Ortelius's Theatrum, Terrestrial Planisphere 1729 by Reiner Otten, New Map of the Americas or the New World 1570 by Ortelius, India and the Dutch East Indies 1635 by Willem Blaeu, New World Mercator Projection Map 1639 by Claes Janszoon Visscher (Piscator).
