Endurance: Shackleton's Incredible Voyage Alfred Lansing

Bound for Antarctica, where polar explorer Ernest Shackleton planned to cross on foot the last uncharted continent, the *Endurance* set sail from England in August 1914. In January 1915, after battling its way for six weeks through a thousand miles of pack ice and now only a day's sail short of its destination, the *Endurance* became locked in an island of ice.

For ten months the ice-moored *Endurance* drifted northwest before it was finally crushed. But for Shackleton and his crew of twenty-seven men the ordeal had barely begun. It would end only after a near-miraculous journey by Shackleton and a skeleton crew through over 850 miles of the South Atlantic's heaviest seas to the closest outpost of civilization.

This astonishing tale of survival by Shackleton and all twenty-seven of his men for over a year on the ice-bound Antarctic seas, as *Time* magazine put it, "defined heroism." Alfred Lansing's brilliantly narrated book has long been acknowledged as the definitive account of the *Endurance*'s fateful trip.
